

RACINGTOOLS

User Manual

Package content

- 1 Steering wheel of the chosen model

- 4 Short stem buttons
- 4 Long stem buttons

- 1 Sticker sheet

- 1 InfoPlate with links to Instruction Manual, tutorials, warranty form, and contact information

Tools required for installation (not provided)

- Phillips head screwdriver (small)
- Hex key

Installation notes:

Long buttons should be placed in the higher slots, while the short ones in the lower slots (right/left). For button installation, reuse the original screws.

We recommend screwing and unscrewing our buttons at least once BEFORE actual installation, gently using the screwdriver to form grooves matching the screw pitch to avoid breaking stems due to excessive pressure during installation.

Materials used

- PLA+ (Polylactic Acid additive)
- UV photocurable resin
- Vinyl sheet (carbon fiber effect)
- Cyanoacrylate two-component adhesive

Product cleaning tips

We recommend cleaning your RacingTools steering wheel using a soft, lint-free cloth dampened with plain water. Avoid using aggressive detergents or alcohol.

Your Mod has been produced with originally colored plastic materials and does not have parts subject to painting.

The Vinyl finish with carbon fiber effect is sensitive to sunlight; avoid exposing your mod to direct sunlight for extended periods.

Thank you for choosing our products.

This steering wheel has been designed to provide a realistic driving experience for driving simulation enthusiasts.

Our steering wheels are 3D printed using high-quality materials to ensure maximum strength and durability. The ergonomic design of the wheel ensures a comfortable, precise, and secure grip while driving.

This wheel is compatible with Logitech models from the 'G' series. Inside this manual, you will find a link to the video that will guide you step by step through the replacement of the original wheel with our Mods.

If you encounter any issues during the installation or use of the steering wheel, please contact our customer service via Whatsapp for assistance.

We wish you an exciting and rewarding driving experience with your new RacingTools steering wheel.
